SUMMARY

Hi! I am Arrafi Fakhri Hadi an undergraduate student Computer Science at BINUS University. Personally, I'm happy to do it learn new things. I am a student taking a class on databases technologies and embedded systems for IoT. Not only that, me also learn front-end usually using the React.js framework. For now, I am learning several frameworks and deepening database tools. I am seeking an internship opportunities at technology companies where I can learn from experienced professionals and contribute to new or existing projects.

EXPERIENCES

FRONT-END DEVELOPER

SMK Ananda Bekasi

25 Mar 2024 - 20 May 2024

I create a website that tournament participants can use to register and get information about the tournament held by SMK Ananda Bekasi. In creating this website, I collaborated with the design team to provide me with the design that will be used on the website.

- Designing a website of Voca Fest Vol.2.
- Create an information website for tournament event in SMK Ananda Bekasi.
- React.JS was used as a framework to create this website.
- Deploying the website using school domain.
- Become an admin to add information to the website.

FRONT-END TEAM

Human and Computer Interaction (BINUS Course)

25 Apr 2022 - 15 May 2022

We created an online platform that offers buying and selling services and provides services for users to choose various types of guitars. In it there is a home menu, selection items, filter items, etc.

- Designing a website of Tanaka Guitar.
- Create a website that can be used as a place to buy and sell guitars.
- Using HTML and CSS for development.

IT SUPPORT

Community Development in SMK Ananda BEKASI

20 Feb 2024 - 10 Aug 2024

As IT support, I work on TKJ LAB maintenance, Accounting and DKV. Apart from that, I also helped to change the design of the main website of Ananda Vocational School.

- Maintenance Laboratory TKJ, Accounting, and DKV.
- Teaching student about UI/UX, Basic Front-end.
- Become an Front-end Developer.
